

BARTENDERS BENEVOLENT FUND

The number of hospitality individuals affected by COVID is a very serious thing. It's hard not to push every single Restaurant and Bar on here, but that list would be too big. Instead, we wanted to share this unique cocktail book that's hand-illustrated and features cocktail recipes and stories from 100 Bars and Restaurants across Canada. 100% of the proceeds from the sales go to the Bartenders Benevolent Fund which helps give money to the hands of Hospitality Individuals needing it most.
